Our Brand

Happy & Healthy Spaces Around the World

Since 2007, our driving force has been to produce effective and high-quality acoustic solutions, lighting, and furniture solutions suited for all environments — from offices to homes and restaurants to learning spaces.

Our multifaceted plug-and-play solutions are both functional and inspiring, while helping to reduce excessive noise so people can feel more focused, less stressed, and thrive better in their environments. This, in turn, has fueled our mission of creating happy and healthy spaces along with increasing the well-being of people worldwide.

We Care

Make It Sustainable

Our first BuzziProducts came to life from recycled and recyclable materials, both of which are good for acoustics and the planet. We are conscious of our environmental impact and will collaborate to achieve continuous improvements in

lowering our carbon footprint. In the long run, we would like to produce less waste in order to create a sustainable future for our people, customers, and communities. This is why we invest in handcrafting durable products with high-quality materials.

Craftsmanship

We Have Over 100 Years of Combined Expertise

We believe in craftsmanship and take pride in the details. With over 100 years of combined experience, our hardworking team pieces together our celebrated solutions, most of them by hand, with an eye for detail and great

precision daily. The longevity of materials used, acoustic properties, and aesthetics are our guiding principles in everything we do. With craftsmanship and timeless design at the forefront, we aim to create products that last.

Innovation

We Believe in Creativity Without Boundaries

In our quest to create boundary-pushing acoustic solutions to meet the ever-changing needs of the modern workspace, our passionate in-house design team, BuzziSpace Studio, is fully committed to innovation.

We additionally collaborate with internationally renowned designers to go beyond what is expected in the design world. Rest assured, we are continuously progressing and innovating to meet our challenges.

Our Recognitions

Award-Winning Creative Solutions

We take great pride in the products that we design, focusing on craftsmanship and high-quality materials, so it's always a delight to be recognized and honored for our achievements. Through the years, we have won over 70 international awards.

Fusing Fashion With Function

When you think of words to describe Maison Tricot, many come flooding into your mind. Among them are innovation, inspiration, artisanal, sustainability and craftsmanship. So, it's no wonder the creative collective, helmed by mother and son duo Hilde Frunt and Ilia Eckardt, has already worked with some of the biggest heavy hitters in both the fashion and design worlds including Dries Van Noten, Ann Demeulemeester and Raf Simons.

As Maison Tricot continues its meteoric rise, BuzziSpace has joined forces with the Belgium-based creative duo on an exclusive collection that pushes the boundaries of interior design. The Maison Tricot x BuzziSpace Collection perfectly fuses our expertise in acoustics and Maison Tricot's mastery of knits and textiles, resulting in a range of ground-breaking acoustic solutions that not only enhance the aesthetics of spaces but also champion eco-conscious practices.

The Vision

At the heart of the bold and vibrant collaboration lies a shared vision to create products that marry sustainability with functionality seamlessly. For the collaborative range with BuzziSpace, the masterminds behind Maison Tricot introduce into the market completely new fabrics and innovative, handcrafted knits made from 100% recycled PET. The innovative easy-to-remove washable knits will adorn an array of new solutions, including new shapes of our beloved acoustic poufs.

The Innovation

The result of the eco-friendly, sustainable Maison Tricot x BuzziSpace Collection is a range of acoustic products that elevate the ambiance of any space, from open-plan offices and lounges to libraries and bars, while mitigating noise pollution. The new boundary-pushing solutions include BuzziKnit Planter, BuzziKnit Pouf Round and BuzziKnit Pouf Square, each seamlessly fusing fashion with function while adding a touch of elegance and coziness to any interior.

The Knits

The collection features several fashion-forward pieces that fill a gap in the contract furniture market. However, the highlight of the collection is the line of handcrafted knits created especially for the collaboration, named Tuck, Weave and Chunky. These knits adorn our acoustic solutions, providing optimal acoustic performance while introducing more textiles and 3D artworks into your environment.

Discover the full range now within the categories of Offices Dividers and Sofas, Poufs and Chairs.

Acoustic Principles

To create a better acoustical environment and reduce reverberation time in a room, BuzziSpace products are developed to perform on one or more of the following acoustic principles.

Absorption

Sound waves are absorbed by any 'acoustically soft' material they encounter.

Sound is energy, and in order to stop this energy from propagating, absorptive panels help to convert this energy into heat through friction. The absorption coefficient of a product will determine the level and quality of absorption. Absorption applies to a fixed wall or ceiling element.

Diffusion

Sound energy is spread evenly in a given space.

Wavelengths that cannot be absorbed through acoustic treatment will scatter evenly back into the room, ensuring a better spread while maintaining a live, vivid sound. This principle can be obtained by alternating different depths of absorptive material and 3D shapes in the room.

Attenuation

Reducing the sound transfer within a room.

In order to reduce sound transfer between different spaces, vertical elements will be applied to cut down sound energy. These solutions can come in different shapes such as sound blocks, vertical ceiling panels, room dividers and desk screens. Attenuation or sound dampening has a positive impact on speech intelligibility and clarity.

Acoustic Performance

The wavelength determines the sound frequency. It is measured as the number of repetitive vibrations per cycle per second and is expressed in Hertz. The audible range of sound is between 20 to 20,000 Hz. The higher the frequency, the higher the tone.

Low Tones

Long wave - Low frequency
(50 - 250 Hz)

E.g. heating systems, ventilation, elevators, copy machines, and server rooms.

Mid Tones

Mid length wave - Speech frequency
(250 - 2500 Hz)

E.g. speech, vowels, and consonants.

High Tones

Short wave - High frequency
(2500 - 12000 Hz)

E.g. ringtones, typing sounds, clicking sounds, and children's speech.

Reverberation Time

It is the time needed for an original sound source to decay to 60 dB and it is expressed in seconds. In order to generate excellent speech intelligibility and clarity, the reverberation time should be adjusted and balanced using absorptive material in the function of specific acoustical issues in a given space.

Recommended Reverberation Times:

Office:	0.75s
Meeting room:	0.60s
Cafeteria:	1.00s
Gymnasium:	1.50s
Auditorium:	1.50s to 2.00s

BuzziFold

— By BuzziSpace Studio

A sustainable solution for your ceilings

BuzziFold can be ceiling-suspended horizontally or vertically. The former permits BuzziFold to act as a classic baffle, while the latter can also help create visual privacy between workstations or various zones. BuzziFold arrives fully assembled, making it an easy-to-install acoustic solution. Just hang it up and say goodbye to excessive noise.

Inspired by the shape of wavelengths, BuzziFold's design effectively mitigates excessive noise while enhancing the overall look of your space.

Combine multiple BuzziFolds at different suspension heights to create a stylish solution that will assist in managing noise levels in spaces with high ceilings.

The folds in BuzziFold provide greater surface area for sound absorption, thus making the solution a high acoustic performer.

BuzziGrid

— By Alain Gilles

An eye-catching acoustic baffle

BuzziGrid is a sound buffer that limits echo within a room. The highly functional sound-absorbing product can be used in meeting rooms, educational spaces, lobbies, or other public places to form a Hub for Togetherness.

BuzziReForm

— By BuzziSpace Studio

Our most sustainable acoustic panel

BuzziReForm utilizes the remarkable properties of mycelium, the fibrous root structure of fungi, to provide an innovative solution for acoustic comfort while promoting environmental responsibility. These mycelium-based acoustic panels are made from local organic waste materials in Europe, making them a fully biodegradable alternative. At the end of their lifecycle, BuzziReForm panels can be easily dismantled and home composted, reflecting BuzziSpace's commitment to circular design principles and environmental stewardship.

Model

Brut

Finishes

Ecological mineral paint available in 4 colors

Option - Mounting

BuzziReForm Brut panels are available with either the Fixing System Adhesive or Fixing System Wood. Both mounting systems are optional – you can also opt for mounting the panels using commercially available glue. We recommend using Tec7 X-Tack or Soudal Fix All High Tack for the best results.

How to order

Sold exclusively in sets of 4 panels | 1 set = 4 panels in one color

Paint color

Mounting (optional)

Each panel displays subtle variations in surface texture, dimensions, and color nuances, highlighting the natural production process and BuzziSpace's commitment to celebrating organic materials.

Each pack includes four panels in a single, nature-inspired color. Choose from sandy Dune, earthy Canyon, Meadow, or Lagoon, all finished with an ecological mineral paint coating.

Arrange the 40 cm x 40 cm panels in various layouts or repeating patterns to create a bold brutalist aesthetic. BuzziReForm's subtle curves add depth and create a striking multi-dimensional effect.

BuzziSkin

BuzziTube

— By BuzziSpace Studio

Create different atmospheres

BuzziTube's voluminous geometric design finds a perfect balance between a suspended acoustic ceiling panel and a work of art. Due to its elegant tubular shape, BuzziTube can instantly elevate any modern residential or commercial space while absorbing excessive noise. BuzziTube can also be combined with pre-existing lighting units.

The acoustic ceiling element features a voluminous curved body that adds a 3-dimensional yet soft and delicate touch to your décor.

BuzziTube Square

— By BuzziSpace Studio

Elevate your ceilings

BuzziTube Square, available in five different sizes, is a functional and aesthetically pleasing suspended acoustic ceiling panel that combines sound-absorbing properties with a clean and symmetrical form. Because of BuzziTube Square's sleek aesthetic, the solution creates a dynamic and balanced look in any open space or room —whether it be for an office, restaurant, school, or home — while improving the auditory experience. Arrange BuzziTube Square in various configurations to achieve your desired acoustic and visual effects.

BuzziZepp

— By Alain Gilles and BuzziSpace Studio

A suspended, linear acoustic panel

Instantly create Hubs for Togetherness with BuzziZepp. Unlike vertical partitions and walls, the sound-absorbing panel helps to establish private zones for an intimate and more purposeful sense of space. When suspended above the source of noise, BuzziZepp's concave shape traps sound waves as they travel upwards, while its soft edges and round silhouette help diffuse.

BuzziShroom

— By Cory Grosser

An acoustic floor lamp

BuzziShroom is a ground-breaking acoustic floor lamp, designed in collaboration with Cory Grosser, that seamlessly integrates lighting, acoustics, and biophilic design into one.

The solution mimics the organic structure of a mushroom, introducing a touch of nature into any environment while addressing acoustic challenges creatively. Its organic design and soft ambient light promote a connection to nature, fostering a sense of calm and concentration in any environment, from modern workspaces to bars and lounges. Additionally, BuzziShroom goes beyond traditional acoustic solutions, actively contributing to the overall well-being of occupants.

BuzziNest

— By BuzziSpace Studio

Silent workspaces anywhere

The BuzziNest privacy booths suit various workplace needs without altering the existing infrastructure. BuzziNest Booth offers a cozy retreat for quick phone calls or moments of focus. For longer individual work sessions, BuzziNest Office is packed with added features, including a height-adjustable work surface, a retractable worktop, and vanity lighting. For small team gatherings, BuzziNest Pod offers an enclosed space for up to four occupants, or opt for the larger BuzziNest Room, which allows up to six users. All BuzziNest models feature superior acoustic properties, sleek design, and customizable options to seamlessly integrate with any office aesthetic.

BuzziVille

— By Alain Gilles

Modular workstations

BuzziVille allows you to customize your own work village in the office. The flexible and modular freestanding system can be arranged to include both private and public workstations for focus work or collaboration. And due to its sound-absorbing materials, BuzziVille soaks up excessive sound, resulting in an acoustically balanced space.

Configure It Yourself Setups

Let these inspiration models guide you when building your own BuzziVille setup. Dimensions of these predefined setups are dependent on the size of the panels you choose. All models are available in 4 heights: 120, 135, 150 & 180 cm | 47.24", 53.15", 59.06", 70.87"

Panels

Upholstered in sound-absorbing materials, BuzziVille provides an acoustic cocoon to focus or host a private meeting.

BuzziPlanter

— By BuzziSpace Studio

A biophilic office divider

BuzziPlanter is a perfect fusion of a planter and an acoustic element. Arriving in nine different variations, BuzziPlanter helps to divide open spaces into luscious micro-environments and green corners, thus creating calm and peaceful areas to work, gather and relax. Consider combining BuzziPlanter 90 with two BuzziCee Halfs to create a stunning centrepiece. Furthermore, you can instantly transform BuzziPlanter 90 and BuzziPlanter 90 Half into a table by opting for the upholstered cover. To maximize space, BuzziPlanter Hanging provides acoustic absorption while introducing an element of verticality.

BuzziQ's soft and curvy design language is perfectly highlighted in our new BuzziFabric Nude 70 shade. The demure pink tone suits any workspace looking to add a bit of color without overpowering any existing decor.

BuzziQ's rotating base allows for different levels of privacy without getting out of your seat.

BuzziSpark

— By Alain Gilles

An acoustic meeting space

BuzziSpark invites you to relax and observe in silence what happens in your surroundings. The plush lounge sofa creates an acoustic shelter so you can work or rest in silence without any distractions from background noise. Its layers of cushions, along with different thicknesses and heights of shields, allow for various levels of privacy and sound control.

FELT — BuzziFelt

Composition 100% Recycled P.E.T. Felt, latex backing
Weight 1.000 g/m² | 29.49 oz/yd²
Width 170 cm | 66.93”
Thickness 6 mm | 0.236”
Abrasion resistance >7.000 Martindale
Flammability EU: EN 13501.1 + A1/2009 Class B-s1,d0
USA: ASTM E84 Class A certified
Fastness to light EU: 6-7 | USA: 5
Maintenance Vacuum clean regularly. Don’t wash. Don’t remove the BuzziFelt from the product. Treat spillages immediately. Professional dry clean or wipe clean with a pH neutral soap and a damp cloth.

FELT — Sliced BuzziFelt

Composition 100% Recycled P.E.T. Felt
Weight 2.000gr/m²
Thickness 1,4 cm | 0.55”
Maintenance Vacuum clean regularly. Don’t wash. Don’t remove the Sliced BuzziFelt from the product. Treat spillages immediately. Professional dry clean or wipe clean with a pH neutral soap and a damp cloth.

CAT A — Revive 1 kvadrat

Composition 100% recycled polyester FR
Weight 420 g/lin.m
Width 140 cm | 55.11”
Abrasion resistance 60.000 Martindale rubs, EN ISO 12947
Flammability EN 1021-1/2 | DIN 4102 B1 | Önorm B1/Q1
UNI 9175 1IM | US Cal. Tech. Bull. 117
IMO A.652 (16)
Fastness to light Note 5-7, ISO 105-B02
Fastness to rubbing (ISO) dry 5, wet 4-5
Pilling Note 4-5, EN ISO 12945
Maintenance Vacuuming and dry cleaning.
Washable at max. 60°C. Drip drying.

FELT — BuzziFelt Printed

Composition 100% Recycled P.E.T. Felt, latex backing
Weight 1.000 g/m² | 29.49 oz/yd²
Width 170 cm | 66.93”
Thickness 6 mm | 0.236”
Abrasion resistance >7.000 Martindale
Flammability EU: EN 13501.1 + A1/2009 Class B-s1,d0
USA: ASTM E84 Class A certified
Fastness to light EU: 6-7 | USA 5
Maintenance Vacuum clean regularly. Don’t wash. Don’t remove the BuzziFelt from the product. Treat spillages immediately. Professional dry clean or wipe clean with a pH neutral soap and a damp cloth.

CAT A — Fabric

Composition 70% Recycled Wool, 25% Recycled Polyacryl, 5% Recycled Other Fabrics
Weight 405 g/m² | 11.94 oz/yd²
Width 148 cm | 58.27”
Thickness 0,8 mm | 0.031 inch
Abrasion resistance 40.000 Martindale, 50.000 Wyzenbeek
Flammability EU: EN 1021.1/2006 | BS EN 1021.1/2006 (cigarette)
EN 1021.2/2006 | BS EN 1021.2/2006 (match)
USA: CAL TB 117 | ASTM E84 CLASS A
Fastness to light EU: 4 | USA: 4
Fastness to rubbing EU: Wet 3-4 | Dry 4-5
Fastness to crocking USA: Wet 5 | Dry 5
Maintenance Vacuum clean regularly. Don’t wash. Don’t remove the Fabric from the product. Treat spillages immediately. Professional dry clean or wipe clean with a pH neutral soap and a damp cloth.

CAT A — Trevira CS

Composition 100% Polyester, Trevira CS
Weight 420 g/m² | 12.39 oz/yd²
Width Trevira CS 140 cm | 55.12”
Abrasion resistance 100.000 Martindale, 90.000 Wyzenbeek
Flammability EU: BS 5852 part II: CRIB 5 | BS 7176 Medium Hazard
M1 | B1 | C1 | EN 1021/1-2 | IMO Res. A652 (16)
USA: CAL TB 117
Fastness to light EU: 6 | USA: 5
Fastness to rubbing EU: Wet 4-5 | Dry 4-5
Fastness to crocking USA: Wet 5 | Dry 5
Match Weight ±5% | Width ±2%
Maintenance Vacuum clean regularly. Don’t remove the Trevira CS from the product. Treat spillages immediately. Professional dry clean or wipe clean with a pH neutral soap and a damp cloth.

CAT A — Reflect kvadrat

Composition 100% post-consumer recycled polyester
Weight 430 g/lin.m | 13.87 oz/ly
Width 140 cm | 55”
Abrasion resistance 100.000 Martindale rubs, EN ISO 12947
Flammability AS/NZS 3837 class 1 | ASTM E84 Class A Unadhered |
ASTM E84 Class B Adhered | BS 5852 crib 5 | BS 5852
part 1 | EN 1021-1/2 | US Cal. Bull. 117-2013
Fastness to light Note 5-7 ISO 105-B02
Fastness to rubbing (ISO) dry 5, wet 5
Pilling Note 4, EN ISO 12945
Maintenance Vacuuming and dry cleaning. Washable at max.
60°C/140°F, mild process. Do not bleach. Do not tumble dry. Iron at
max. 150°C.

CAT B — CLARA 2 kvadrat

Composition 92% new wool, 8% nylon
Weight 400 g/lin.m
Width 138 cm | 54.33”
Abrasion resistance 80.000 Martindale rubs, EN ISO 12947
Flammability EN 1021-1/2 | BS 5852, ignition source 2–3 | DIN
4102 B2
NF D 60 013 | UNI 9175 1IM | US Cal. Tech. Bull. 117,
Sec. E
NFPA 260 | IMO A.652(16)
Fastness to light Note 5-7, ISO 105-B02
Fastness to rubbing (ISO) dry 4-5, wet 4
Pilling Note 4, EN ISO 12945
Maintenance Vacuuming and dry cleaning.

CAT B — Velvet

Composition 100% PES
Weight 375 g/m² | 11.06 oz/yd²
Width 140 cm | 55.12”
Thickness 0,7mm | 0.0275”
Abrasion resistance >100.000 Martindale
Flammability USA: CAL TB 117
Fastness to light EU: 4-5
Fastness to rubbing EU: Wet 4 | Dry 4-5
Pilling EU: 4-5
Match Weight ±5% | Width ±2%
Maintenance Vacuum clean regularly. Don’t wash. Don’t remove the Velvet from the product. Treat spillages immediately. Professional dry clean or wipe clean with a pH neutral soap and a damp cloth.

CAT B — REMIX 3 kvadrat

Composition 90% new wool, 10% nylon
Weight 415 g/lin.m
Width 138 cm | 54.33”
Abrasion resistance 100.000 Martindale rubs, EN ISO 12947
Flammability EN 1021-1/2 | BS 5852 part 1
Önorm B1/Q1 | NF D 60 013 | UNI 9175, 1IM
AS/NZS 1530.3 | Cal. Tech. Bull. 117-2013
NFPA 260 | IMO FTP Code 2010:Part 8
Fastness to light Note 5-7, ISO 105-B02
Fastness to rubbing (ISO) dry 4-5, wet 4
Pilling Note 4, EN ISO 12945
Maintenance Vacuuming and dry cleaning.

CAT C — Hero 2 kvadrat

Composition 97% new wool, 3% recycled nylon
Weight 580 g/lin.m
Width 140 cm | 55.11”
Abrasion resistance 45.000 Martindale rubs, EN ISO 12947
Flammability EN 1021-1/2 | DIN 4102 B2 | NF D 60 013
UNI 9175 1IM | US Cal. Bull. 117-2013 | NFPA 260
IMO A.652 (16)
Fastness to light Note 5-6, ISO 105-B02
Fastness to rubbing (ISO) dry 4-5, wet 4-5
Pilling Note 3-4, EN ISO 12945
Maintenance Vacuuming and dry cleaning. Washable at max. 30°C,
wool programme. Drip drying. Mount covers in slightly wet condition.

CUR A — Noon kvadrat

Characteristics Transparent
Composition 100% polyester FR
Weight App. 180 g/lin.m
Flammability NFPA 701 | EN 13 773 class 1 | DIN 4102 B1 | NF P 92 507 M1 | JIS L 1091 A-1 D | UNI 9177 Classe 1 | BS 5867 part 2 type B | SN 198 898 5.2 | IMO FTP Code 2010 Part 7 | EN 13501-1, B-s1, d0 | AS/ NZS 1530.3 | CAN ULC S102 | AS/ NZS 1530.2 | CAN ULC S109 | IMO FTP Code 2010 Part 5
Fastness to light Note 5-7 ISO 105-B02
Maintenance Washable at max. 60°C.
Drip drying. Ironing will be necessary.

CUR B — Velvet

Characteristics Acoustic, Opaque
Composition 100% PES
Weight 375 g/m² | 11.06 oz/yd²
Width 140 cm | 55.12"
Thickness 0,7mm | 0.0275"
Abrasion resistance >100.000 Martindale
Flammability USA: CAL TB 117
Fastness to light EU: 4-5
Fastness to rubbing EU: Wet 4 | Dry 4-5
Pilling EU: 4-5
Match Weight ±5% | Width ±2%
Maintenance Washable at 40°C. Drip drying.

CUR B — Daybreak 2 kvadrat

Characteristics Transparent
Composition 100% polyester FR
Weight App. 270 g/lin.m
Flammability EN 13 773 class 1 | BS 5867 part 2 type B | DIN 4102 B1 | SN 198 898 5.2 | NF D 92 507 M1 | UNI 9177 classe 1 | AS/ NZS 1530.3 | IMO A.471 (XII)
Fastness to light Note 5-7, ISO 105-B02
Maintenance Washable at max. 60°C.
Drip drying. Ironing will be necessary.

CUR C — Dawn 2 kvadrat

Characteristics
Acoustic, Opaque, Light transmittance of 0-0,2% (DIN EN 410)
Composition 100% polyester FR
Weight App. 780 g/lin.m
Flammability EN 13 773 class 1 | EN 13501, B-s1, d0 | BS 5867 part 2 type B | DIN 4102 B1 | SN 198 898 5.2 | NF D 92 507 M1 | UNI 9177 classe 1
Fastness to light Note 5-7, ISO 105-B02
Maintenance Washable at max. 60°C. Half wash load. Drip drying.
Ironing might be necessary when washed at 60°C.

CUR C — Zulu 2 kvadrat

Characteristics Transparent
Composition 100% Trevira CS
Weight App. 300 g/lin.m
Flammability EN 13 773 class 1 | BS 5867 part 2 | DIN 4102 B1 | NF P 92 507 M1 | UNI 9177 classe 1 | IMO FTP Code 2010:Part 7
Fastness to light Note 7, ISO 105-B02
Maintenance Washable at 40°C. Drip drying.

CUR D — Mi Casa kvadrat

Characteristics Acoustic, Opaque
Composition 100% Trevira CS
Weight App. 600 g/lin.m
Flammability EN 13 773 class 1 | BS 5867 part 2 type B | DIN 4102 B1 | SN 198 898 5.2 | NF D 92 507 M1 | UNI 9177 classe 1 | IMO FTP Code 2010:Part 7
Fastness to light Note 5-7, ISO 105-B02
Maintenance Washable at max. 60°C. Half wash load. Drip drying.
Ironing might be necessary when washed at 60°C.

CUR D — Drops kvadrat

Characteristics Transparent
Composition 100% Trevira CS
Weight App. 225 g/lin.m
Flammability EN 13 773 class 1 | BS 5867 part 2 type B | DIN 4102 B1 | NF D 92 507 M1 | UNI 9177 classe 1 | FAR 25.853 | IMO FTP Code 2010:Part 7
Fastness to light Note 6-7, ISO 105-B02
Maintenance Washable at max. 60°C. Drip drying.

CUR F — Drops Acoustic kvadrat

Characteristics
Acoustic, Transparent, Light transmittance of 31-46% (DIN EN 410)
Composition 100% Trevira CS
Weight App. 315 g/lin.m
Flammability BS 5867 part 2 type B | DIN 4102 B1 | EN 13773 Class 1 | IMO FTP Code 2010:Part 7 | NF P 92 507 M1 | SN 198 898 5.2 | UNI 9177 classe 1
Fastness to light Note 7 ISO 105-B02
Maintenance Washable at max. 60°C. Drip drying.

* BuzziNest HPL Tables and shelf only in Truffle Grey

WOOD

Antwerp Oak

Properties Oak Solid wood with a subtle rustic look, allowing some pith and small cracks.
Maintenance First, wipe the surface with a dry cloth then clean carefully with a damp cloth. Do not use any abrasive cleaning products or scourers as this can damage the surface.

Ash Natural

Properties Clear coating with a matt varnish look, consisting of a durable finish, suitable for furniture, that masks normal wear and leaves the wood grain visible to the eye.
Maintenance First, wipe the surface with a dry cloth then clean carefully with a damp cloth. Do not use any abrasive cleaning products or scourers as this can damage the surface.

Ash Walnut Stained

Properties Oil based coating with walnut colored pigments consisting of durable finish, suitable for furniture, that masks normal wear and leaves the wood grain visible to the eye.
Maintenance First, wipe the surface with a dry cloth then clean carefully with a damp cloth. Do not use any abrasive cleaning products or scourers as this can damage the surface.

Oak

Properties Clear coating with a matt varnish look, consisting of a durable finish, suitable for furniture, that masks normal wear and leaves the wood grain visible to the eye.
Maintenance First, wipe the surface with a dry cloth then clean carefully with a damp cloth. Do not use any abrasive cleaning products or scourers as this can damage the surface.

Ash Black Stained

Properties Black clear coating with a matt look, consisting of a durable finish, suitable for furniture, that masks normal wear and leaves the wood grain visible to the eye.
Maintenance First, wipe the surface with a dry cloth then clean carefully with a damp cloth. Do not use any abrasive cleaning products or scourers as this can damage the surface.

Ash White Wash

Properties Oil based coating with white pigments consisting of durable finish, suitable for furniture, that masks normal wear and leaves the wood grain visible to the eye.
Maintenance First, wipe the surface with a dry cloth then clean carefully with a damp cloth. Do not use any abrasive cleaning products or scourers as this can damage the surface.

Cumaru

Properties Tropical hardwood which is more resistant to weather influences. No oil or varnish is applied. In normal use, wood will turn grey over time.
Maintenance Aftermarket teak cleaning product can be used for yearly maintenance to freshen up the wood after winter. Do not use any abrasive cleaning product or scourers as this can damage the wood. Cumaru wood is naturally durable but may be prone to movement and cracking in outdoor environments.

Walnut

Properties Clear coating with a matt varnish look, consisting of a durable finish, suitable for furniture, that masks normal wear and leaves the wood grain visible to the eye.
Maintenance First, wipe the surface with a dry cloth then clean carefully with a damp cloth. Do not use any abrasive cleaning products or scourers as this can damage the surface.

Refinishing should be done by a specialist in furniture coating.
It requires sanding of the parts and re-applying an equal amount of coating on all sides.

White or black Laminate

Properties HPL top layer with plywood core and straight oiled visible plywood edge
Maintenance Depending on the stains/dirt there are different prescriptions: **LIGHT:** dry or damp paper towels, a cloth or sponge. **NORMAL:** with a cloth or soft nylon brush and washing powder, soft soap, toilet soap or washing-up liquid. If necessary, leave for a while and then rinse thoroughly with clean water. **HEAVY:** Discoloration stains through long exposure to tea, coffee, etc. use washing powder and household bleach (but do not repeat too often). For stains such as lead pencil, felt-tip pens, marker and ball-point pens use an organic solvent for example acetone (nail varnish remover).

Ash Lacquered

Properties Lacquered coating with matt look, leaving a visual wood grain.
Maintenance First clear the surface with a dry cloth, then clean with a slightly damp cloth. Do not use abrasive cleaning products nor scourers, they can damage the surface.

HPL

Melamine
